- Planned, coordinated and delivered engaging programmes for children aged 4 to 12.
- Supported site logistics and operational planning.

Little Kickers, London

Lead Assistant Football Coach

2024 - 2025

- Independently delivered football sessions for children aged 18 months to 10 years, adapting activities to different ages, abilities, and confidence levels.
- Built strong relationships with parents by providing regular feedback on children's development and progression.
- Planned engaging lesson structures that promoted teamwork, confidence, coordination, and enjoyment.
- Mentored newer coaches and supported the delivery of large group sessions
- Developed tailored coaching strategies to meet the individual needs of each child.
- Coordinated with other coaches to organise tournaments and events, ensuring a safe and engaging environment.

Three Bridges Primary School, London

Work Experience

June 2024 - July 2024

- Assisted teachers in classroom management and lesson delivery.
- Supported students with their learning activities, fostering a positive learning environment.
- Helped organize and execute school events and activities. Gained insight into child development and inclusive educational practices.

Projects

Kangara

Maternal Wellbeing FemTech Venture

- Co-developed **Kangara**, an award-winning maternal wellbeing wearable FemTech venture designed to improve reassurance and confidence during late pregnancy.
- Conducted market research, user research, competitor analysis, and business validation.
- Collaborated with professionals across biotechnology, biomedical engineering, healthcare, and maternal wellbeing to validate the concept and inform product development.
- Designed the commercial model, product positioning, and venture strategy.
- Presented the venture to an international judging panel, securing 3rd Place in a global venture hackathon mobilising over 52+ countries.

Echolocation

Accessibility AI

- Co-developed **Echolocation**, an AI-driven accessibility venture focused on improving independence for blind, visually impaired, and paraplegic users.
- Designed **Echora**, a voice-first AI assistant concept that enables users to navigate technology, access information, and complete everyday tasks through natural conversation, promoting greater independence and accessibility in everyday digital interactions.
- Conducted user, market, and competitor research to identify accessibility challenges and validate the product concept.
- Developed the business model, value proposition, go-to-market strategy, and product roadmap, presenting the venture to international judges and achieving **3rd Place** at an AI innovation hackathon.

Academic & Research Experience

Independent Research Project | Psychology

- Designed and independently conducted a repeated-measures psychological research study comparing perceived social connection following conversations with humans and AI chatbots.

- Developed the research methodology, designed semi-structured conversation prompts, managed ethics, and collected qualitative and quantitative data.
- Applied statistical analysis and reflected critically on methodology, limitations, and future applications in digital communication. Presented conclusions evaluating AI's impact on empathy, responsiveness and perceived social connection
- Enhanced critical thinking, problem-solving, and data analysis skills.
- Presented findings evaluating the opportunities and limitations of AI in fostering perceived social connection.

British Biology Olympiad (2025)

- Competed in a national competition requiring application of biological knowledge beyond the curriculum.
- Developed advanced problem-solving and scientific reasoning under timed conditions.

Leadership & Extracurricular Activities

Student Leadership Team | Lampton Academy

June 2025 - June 2026

- Selected as 1 of 12 students from over 250 applicants to represent a student community of more than 1,500.
- Planned and delivered major school events including Sixth Form Open Evening, Year 12 Taster Day, Year 11 Mock Interview Day, Primary Transition Day, and the Osterley Sponsored Walk.

- Acted as a trusted liaison between students, senior leadership, staff, parents, and prospective families.
- Conducted mock interviews for Year 11 students, providing structured feedback to develop interview confidence and employability skills.
- Delivered presentations to large audiences and represented the school at open evenings, supporting prospective students and parents.
- Delivered the keynote student speech at Sixth Form Open Evening to prospective families, representing the student experience before a large audience.
- Contributed to student wellbeing initiatives through mentoring, pastoral support, and representing student perspectives in leadership discussions.

Psychology Ambassador | Lampton Academy

- Represented the Psychology Department at school events and open evenings, engaging with prospective students and parents.
- Supported younger students through academic mentoring and promoted psychology across the school community.

First Give Programme | First Give | Muslim Hands

December 2021 - May 2023

- Led a student team through the national First Give programme, researching community issues and developing a social action campaign.
- Won First Place, securing a £1,000 grant for Muslim Hands following a judged presentation.
- Organized and led a sponsored fast involving 500 pupils and teachers, receiving donations which totalled over £300.
- Invited back as a judge for the First Give Programme events for the year 2023, after achieving success as a leader in the previous year, executing a successful mass fast.
- Coordinated logistics, promoted participation, and delivered event impact at scale.

Girls Football Team Captain | Lampton Academy

September 2019 - September 2023

- Captained the school football team for four years, leading training sessions and representing the school in inter-school / national competitions.
- Motivated teammates, organised practices, and promoted teamwork, resilience, and sportsmanship.

Future Leader Programme

October 2024 - June 2026

- Completed leadership development in global leadership, cross-cultural intelligence, executive presence, stakeholder communication, and ethical decision-making.
- Collaborated with students from diverse backgrounds while strengthening strategic thinking, networking, and professional communication skills.
